

### NEIGHBORHOOD SCAVANGER HUNT WITH GEORGIA 811'S DIGGER DOG

Georgia 811's goodwill ambassador for safe digging Digger Dog wants to let everyone know that it is important to know where the underground utilities are before you dig. So, it is important to contact 811 to have the underground utilities located and marked. Digging should be done within 18 inches of either side of the marked utility.

Hunt your neighborhood for items that start with each letter or find items with numbers on them. Once you're done post a picture with the completed form on Georgia 811's and Digger Dog's Facebook (Facebook.com/DiggerDog811) or Twitter pages (@DiggerDog811)!
